DAVIS SYSTEM SOFA STYLE ARMREST

Design R&D Frigerio

Raffinata espressione di un modo di intendere il divano come elemento d'arredo protagonista dell'ambiente, Davis non è un semplice divano, ma un sistema che permette di creare il proprio divano su misura, permettendo di abbinare differenti tipologie di braccioli e scegliendo fra cinque modelli di piedini e tre comfort di seduta. La collezione Davis è caratterizzata da un'estesa gamma di elementi componibili con cuscini schienale rialzabili (patent pending Frigerio) e un'ampia gamma di accessori per realizzazioni uniche. Questo programma di sedute brevettato è altamente versatile con un'ampia modularità che permette lo sviluppo di composizioni lineari o dal ritmo articolato con configurazioni più o meno formali per soddisfare ogni esigenza del vivere moderno.

Davis diventa il protagonista della stanza grazie alle dimensioni perfettamente bilanciate ed armoniose del **bracciolo Style** che stupisce per il design inaspettato dalla silhouette unica. Il bracciolo Style si caratterizza da una forma non convenzionale per un risultato inaspettato ulteriormente enfatizzato da una cucitura sartoriale sul lato. Un design geometrico e fortemente caratterizzante.

Refine expression of a way to interpret the sofa as a leading character of the environment, Davis is not a simple sofa, but a system which allows you to create your made-to-measure sofa, combining different kind of armrests and choosing between five different models of feet and three seat comforts. The Davis collection features a wide range of sectional elements all with back cushions having an integrated raised movement (patent pending Frigerio) and a wide range of accessories for unique realizations. This highly versatile patented pending seating programme allows the development of linear or more articulated compositions with configurations more or less formal to meet the needs of the modern living.

Davis becomes the leading character of the environment thanks to the perfectly balanced and harmonious dimensions of the **armrest Style** which amazes for its unexpected design and unique silhouette. The armrest Style features an unconventional shape for an unexpected result furtherly emphasized by a tailoring sewing on the side. A geometrical and strongly featuring design.
